User successfully logs in and is redirected to the Products Page .	2	Observe the top section of the page.	Header titled “ Products ” is displayed clearly.	3	Scroll through the list of available products.	All products are displayed in a grid or list format.	4	Verify the details of each product card.	Each product displays: Name, Price, Description, Image , and an Add to Cart button.
Step No.	Action / Step Description	Expected Result																
1	Log in using valid user credentials.	User successfully logs in and is redirected to the Products Page .																
2	Observe the top section of the page.	Header titled “ Products ” is displayed clearly.																
3	Scroll through the list of available products.	All products are displayed in a grid or list format.																
4	Verify the details of each product card.	Each product displays: Name, Price, Description, Image , and an Add to Cart button.																

	5	Click on the Add to Cart button for any product.	The button label changes to “ Remove ”, and the cart badge count increases by 1 .
	6	Click the Remove button on the same product.	The button changes back to “ Add to Cart ”, and the cart badge count decreases by 1 .
	7	Add multiple products to the cart.	The cart badge count reflects the total number of products added.
	8	Click the Cart icon in the header.	The system navigates to the Cart Page displaying all selected items.
	9	Return to the Products Page .	Previously added products still show the “ Remove ” button, and the cart badge remains accurate.
	10	Open the sorting dropdown at the top of the page.	Sorting options (e.g., Name (A–Z) , Name (Z–A) , Price (Low–High) , Price (High–Low)) are visible.
	11	Select Name (A–Z) sorting option.	Products are arranged alphabetically from A to Z .
	12	Select Name (Z–A) sorting option.	Products are arranged alphabetically from Z to A .
	13	Select Price (Low–High) sorting option.	Products are arranged in ascending order by price .
	14	Select Price (High–Low) sorting option.	Products are arranged in descending order by price .
	15	Resize the browser window or open on mobile/tablet view.	Page layout remains responsive , with all product elements visible and properly aligned.
	16	Hover or click on a product image (if applicable).	Product image displays correctly without distortion or broken links.
	17	Refresh the page.	Cart status and button states remain consistent with previous selections.

Description

As a logged-in user, I want to view and manage available products so that I can choose what to purchase.

The Products page should display a list of items that users can browse, add to their cart, or remove from it.

Users should also be able to sort products based on name or price.

Test Cases:

Test Case ID	Example
TC01	Verify that the “Products” page header is displayed correctly
TC02	Verify each product displays name, image, price, and Add to Cart button
TC03	Verify Add to Cart button updates to Remove and increments cart count
TC04	Verify Remove button reverts to Add to Cart and decrements cart count
TC05	Verify cart badge count updates correctly for multiple added items
TC06	Verify user can navigate to Cart page via cart icon
TC07	Verify sorting by product name (A–Z) works correctly
TC08	Verify sorting by product name (Z–A) works correctly
TC09	Verify sorting by price (Low–High) works correctly
TC10	Verify sorting by price (High–Low) works correctly
TC11	Verify product state persists after navigating away and back
TC12	Verify Products page layout is responsive across devices
